

# BONITA BAY CLUB EAST

NAPLES, FLORIDA

Natural Region: Southern Coastal Plain

Watershed: Big Cypress Swamp

Bonita Bay Club East is the home to The Cypress and The Sabal golf courses in northern Collier County, near Naples, Florida. Habitats throughout the site, such as pine flatwoods, live oaks, and cabbage palm hammocks are representative of southwest Florida. Native vegetation includes slash pines, southern bald cypress, and saw palmetto. The 1,440-acre property includes a 900-acre cypress preserve that is the largest stand of bald cypress left in its natural state in Florida. There is no housing at Bonita Bay East, where 98% of the landscape material used is native vegetation. Osceola wild turkey and wild pigs are seen regularly. On February 26, 1998, Bonita Bay East became the first private 36-hole facility to become certified as an Audubon International Signature Sanctuary.
